

## VIII POLISH OUTSOURCING FORUM

April 25, 2013 09:30 — April 25, 2013 16:00

Hotel Leela Palace, Bangalore, India

Polish Outsourcing Forum is an event, which is devoted entirely to the outsourcing industry. This year, VIII Polish Outsourcing Forum is travelling to Bangalore in India, which is home to Business Process Outsourcing (BPO).

The goal is to reach out to the vast middle market of Indian BPO companies who know that to compete on the global stage they need to have a European footprint. Lithuanian and Polish delegates will be providing the insight into the European BPO markets.

We invite you to meet us in India to hear what Lithuania and the whole region has to offer.

During recent years, Lithuania has established a reputation as the banking service hotspot in the Nordic region for support functions. Over the last couple of years Lithuania has been attracting an increasing interest from the banking industry: a number of major banks have established different business support functions in Vilnius, from payment processing to IT operations.

Just over the last few months three major Nordic banks (Danske bank, SEB bank and Swedbank) have announced their plans to establish and grow their back office operations in Lithuania.

To arrange a meeting with one of our delegates, please contact [agne.selemonaite@investlithuania.com](mailto:agne.selemonaite@investlithuania.com)
